**Importance:** High

Betsy,

Thanks. I've got it now. I guess it did not reached because of the "org" instead of "gov."

Have a good weekend,

Antonia

**Importance:** High

Greetings,

Attached above are the internal review drafts of four document we have developed. The documents PFOA HA 021616 and PFOS HA 02 26 16 are approximately 80 pages and summarize the basis for the HAs. The more detailed Health Effects Support Documents (HESD) for PFOA (PFOA 010816) and PFOS (PFOS 121715) are also provided for the sake of completeness; these are much longer and complex documents.

These documents are still in review internally at EPA and may still change as a result of comments we receive. We are requesting that CDC focus on the dose-response sections of the HAs for PFOA and PFOS (section 6.0), including our selection of the critical study and the exposure scenario. We are requesting any comments you may have on that section or other sections of the documents by 3/4. We do describe the NHANES results for these compounds in the HAs, so you may want to comment on those sections as well.

Please call if you have questions. Many thanks, Betsy
